

FAASTeam presents:

Emergency Bailout Procedures and Survival Equipment For Pilots

You have just experienced a mid-air collision, a wing is gone and you are spinning towards the ground! You have just seconds to react...what is the first thing you need to do?

If you had to think about your answer, then you can't afford to miss one of the informative and entertaining presentations by Allen Silver, one of the world's recognized experts in getting you out of your aircraft quickly and safely.?

Allen offers an energetic, interactive seminar on all aspects of a bailout including mental attitude, preflight preparation, how to get out of your aircraft, deploying your parachute, and landing safely back on earth. You'll also learn other steps you can take to increase your chances of surviving a bailout and even how to choose the right parachute for you.??

Allen Silver of Silver Parachutes has been an FAA Master Rigger since 1974 and in 1991 was designated as a Parachute Rigger Examiner for the FAA. Allen also served three terms as the chairman of the Parachute Industry Association (PIA) Rigging Committee, a worldwide organization that represents the parachute industry.

AeroDynamic Aviation, a flight school in San Jose since 1960, specializes in flight training with tailwheel and aerobatic aircraft.

Event Details

Sat, May 7, 2016 - 11:00 PDT

AeroDynamic Aviation

2650 Robert Fowler Way

San Jose, CA 95148

Contact: JEN DELP-MALLET

(408) 320-9614

info@aerodynamicaviation.com

Select #: WP1567978

Representative JENNIFER RAYNE DELP-
MALLET

Directions: AeroDynamic Aviation is located in San Jose at Reid-Hillview Airport. From Capitol Expressway, turn west onto Cunningham Ave. Take the first right turn and follow the road around until you see a building on the left with an AeroDynamic Aviation sign. The seminar will take place though the office in the hangar.

A message from the National FAASafety Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
